Professional Summary

Results-driven Full Stack Developer with 5+ years of experience building, testing, and maintaining scalable web applications for global and local clients. Strong background in modern JavaScript frameworks and full-stack architectures, including Svelte/SvelteKit, React, Angular, Next.js, NestJS, and ASP.NET Core. Proven ability to translate client requirements into high-quality solutions, collaborate across teams, and manage the full software lifecycle from concept to deployment. Experienced in Web3 platforms, ERP systems, and SaaS products, with a solid foundation in databases, automated testing, and performance optimization. Passionate about solving complex problems and delivering reliable, user-centric applications.

Education

2019 - 2023 - Obtained Marks - 3.71/4.00 (92.75%)

BS Information Technology - Government College University Faisalabad

Skills

Teamwork | Communication | Problem-solving | JavaScript | C# | Sveltekit | Svelte | React | Angular | NestJs | ASP.NET Core | Tailwind Css | Pocketbase | SQL server | Supabase | Git

Projects

- **Yalgamers.gg** - *Svelte, SvelteKit, Tailwind Css, React, Nestjs, Postgres, Pocketbase.*

Yalgamers.gg is a platform dedicated to Web 3.0 gaming, specifically targeting the MENA (Middle East) region. It offers a variety of Web 3.0 games across different genres, including shooter, strategy, and multiplayer games.

- **Jamify.app** - *Svelte, sveltekit, pocketbase and tailwind css, daisyUi.*

Users can search for events, save them to personal collections, and invite or add friends. They can view friends' saved events, add tickets to their own saved events, and share ticketed events so friends can see and join them.

- **Blockchain Crowdfunding** - *React, Nextjs, Postgres, Tailwindcss.*

Web3 crowdfunding platform using Next.js and TypeScript, integrating blockchain-based wallet authentication, smart contract interactions, and a Prisma-backed database. Designed and implemented features such as campaign creation, funding, and user profile management, with a focus on scalability, security, and modern UI/UX principles.

- **Web3 E-Commerce** - *React, Nextjs, Postgres, Tailwindcss.*

Built a full-stack Next.js TypeScript web3 e-commerce app with wallet-based checkout, admin dashboard, and Prisma-backed product/order management.

- **Slotly** - *Svelte, SvelteKit, Drizzle ORM, PostgreSQL, Web3.js, Vite.*

Developed and maintained a feature-rich slot booking platform, leveraging modern web technologies to deliver seamless user experiences. Designed and implemented scalable backend services, real-time notifications, and interactive UI components, ensuring high performance and reliability.

- **ERP Application** - *Svelte, sveltekit, pocketbase and tailwind css, daisyUi.*

This ERP leverages **SvelteKit** and **PocketBase** to deliver a high-performance, real-time business suite for managing sales, inventory, and billing. By utilizing **DaisyUI** and **Tailwind CSS**, the platform provides a responsive, enterprise-grade interface that streamlines complex workflows across multi-warehouse logistics and automated financial reporting.

- **Crowdfunding Web App** - *FYP using Svelte, sveltekit, pocketbase and tailwind css, daisyUi.*

A campaigner can post and donors can support the campaigner. Admin can manage all users, transactions, campaigns.

- **Expense Tracker** - *Svelte, tailwind css, and daisyUi.*

Easy and simple browser storage based web application. Hold your daily cash record without involving any third party.

- **Online Notice Board Web App** - *Svelte, sveltekit, pocketbase and tailwind css, daisyUi.*

Admin can publish notice for one specific class or whole department or for the whole college.

Admin can manage users. Students can view notices, profiles and can message admin.
